Other sections of the shop will include a power pack testing bay, paint room, wash and repair area, optical instrument room, signal repair room, and a battery charging and storage area.

### SCHOOL PLANS MATH, READING COURSES

Crawford-Ausable School District's summer reading, math, and recreation program will begin on Monday, June 12, with an anticipated enrollment of 160 elementary students, from all schools in the county.

This year the program, which is supported by the Elementary and Secondary Education Act of 1965, has been christened Crawford-Ausable Day Camp.

Since summer is a time for fun, the program has been designated with this idea in mind. A typical daily schedule for each child will include a reading or math period, a library period, a recreation or handicraft period, and a swimming period. In addition to these activities, several excursions have been scheduled to the Traverse City Children's Zoo, the Cherry County Children's Playhouse, the bridge and fort in Mackinaw City and others.

Unfortunately, the program has to limit the number of students that can attend. Children who are eligible to participate have been identified by their teachers as needing extra work on their reading or arithmetic.

An outstanding Memorial Day Little League double header and parade were witnessed by many baseball fans.

The Grayling school band, directed by Mr. LeRoy Christian with four major league teams marched from the downtown area to Milliken Field.

Mr. John Kaufman, President of Little League in Northern Michigan was here and was impressed with Grayling's Little League. He wished the teams a successful season. Mr. A. J. Sorenson, mayor of Grayling, spoke and wished the young sluggers good luck.

When the dust finally settled and the last out was called, Sorensons, defending Champions, shot the Military team 6-0. The Hungry Moose bit the Legion 7-3.

Win or lose, all teams displayed good baseball and sportsmanship. Other action during the week: Sorensons stopped the Military, 7-0. The Moose stomped the Legion 9-7.

## Indiana Guard Due Saturday

### Jaycees Install New Officers

Dunk's Inn was the site of the Grayling Area Jaycees' second annual awards and installation banquet on Friday, June 2nd.

A social hour was held from six thirty to seven-thirty after which the thirty-five persons present sat down to a very enjoyable meal of chicken and roast beef.

After the meal President Gust asked for a motion that the Jaycees meet in a committee of the whole for the purpose of presenting awards and installing the new officers. Motion was made by Wyers, seconded by LaMotte and carried.

Merit awards were presented to Robert LaMotte, William Holzman and James LaGrow by Terry Wyers. The certificates were issued in appreciation of outstanding service to the club over the past year. Charles Fick and Larry Gust were then presented with Key Man awards. Because of the exceptional service each man gave to the Jaycees during the past year it was decided to give two of these awards rather than the one recommended. The ten-chapter members then signed their names to a scroll that

### Schools Plan Summer Program

If all goes well within the next few weeks, students of the Crawford-Ausable School District will be able to take part in a new summer program. At the present time about 125 students are enrolled in Tennis I and II, Arts and Crafts and Instrumental Music, which are the classes being taught this summer at the Grayling Elementary School, barring any unforeseen problems. Teachers planning to teach in the summer program are Mr. Bufe and Mr. Christian.

A very small portion of the expense of this program will be taken care of by the Mott Foundation of Flint, through the office of Mr. Terry Meeder of Alma College.

The largest problem concerning the summer program at this time is money. Local funds are inadequate to completely finance the program as are funds from the Mott Foundation. It is therefore necessary to charge a small registration fee for each student enrolled. It is hoped that this fee will help to defray the expenses of the program.

If our summer program is successful, and if final arrangements can be made with the Mott Foundation, a complete community School Program could go into effect in the Grayling area this fall, or no later than January.

Plans call for a complete program of Youth Enrichment as well as numerous classes in Adult Education.

### OneCap Opens Roscommon Office

OneCAP opened an office at 7746 W. Houghton Lake Drive in Houghton Lake Heights, Tuesday, June 6, 1967.

The office is presently staffed by Mrs. Dove, Community Aide and Mrs. Claud Saverco, temporary aide.

OneCAP is presently doing a survey in the Heights in order to obtain information on the area.

### Crawford County Recreational Activities

Summer has belatedly come to Crawford County, and with warm weather Mother Nature is making up for lost time.

All canoeing trails of the county are in good condition. The Upper Manistee River, the Main Stream of the AuSable, along with the South Branch are normal and clear. The opportunity to observe birdlife and wildlife along the banks of the canoeing waters is unexcelled.

All foliage is out and the numerous species of wildflowers are making their daily appearance.

Trout fishing is rapidly approaching its best. On quality sections of the AuSable Main Stream, South Branch, and North Branch, late afternoon and evening hatches have begun. Small Drakes, Stones and Evening Duns are being used and taking fish. Early morning hatches are also appearing with warm weather.

Day time hatches of Brown Drakes should start on sections of the South Branch.

The East Branch of the AuSable, Big Creek and Upper Manistee are still producing good catches of trout for bait and spincaster fishermen.

Since this also was an observance of the church's 75th year, an Anniversary Cake, designed to represent an open Bible, graced the table at which the pastors and their wives were seated. This lovely cake was the work and gift of Mrs. Robert Dandy, a member of St. John Church.

The Rev. John Miller brought greetings on behalf of the Michigan Synod, whom he represented, and told how he had followed the

The ladies of St. John Lutheran church are serving Ackleskiver and coffee from 2 p. m. on Wednesday, June 14th. They hope you will join them.

### 5,000 Michigan Guard Too

More than 6000 citizen-soldiers of the 38th Infantry Division, Indiana Army National Guard, will depart for Camp Grayling, Michigan, Saturday, June 10 to join 3000 members of the Michigan National Guard for their annual two-week summer active duty field training. Beginning at 6:00 p. m. on Saturday, units of the 38th Division will leave via motor convoy for Camp Grayling using approximately 2500 military vehicles. The movement of these vehicles will be controlled by a pre-determined schedule of check points and staggered arrival times, thus allowing near-normal traffic conditions on

the main convoy routes of US-27 and US-131.

Most of the units will set up overnight bivouac sites in southern Michigan on their way to Camp Grayling. This practice promotes highway safety by limiting the number of continuous driving hours reducing driver fatigue.

According to Major General Noble F. Schlatter, Commanding General of the 38th, Indiana Guardsmen will be joined by 1000 Army Reservists from Indiana and Michigan. These reservists will be assigned to appropriate units of Indiana's "Cyclone Division" for their training.

Michigan's Second Brigade numbers about 3,500 men and officers and is Michigan's Special Reserve Force or S-R-F unit. The units comprising the Brigade are from Detroit, Flint, Saginaw, Ionia, Port Huron, Lapeer, Wyoming, Greenville, Holland, Grand Haven, Big Rapids, Owosso, Grand Ledge and Pontiac.

The combined skills of more than 9000 men will be used in conducting Battalion level tactical exercises during their first week of encampment. The second week will be spent performing Brigade level tactical exercises. The Brigade level exercises will be a first for Camp Grayling and also the first training of this type to be conducted by the Indiana Army National Guard since World War II.

Units of the 38th Aviation Battalion will train at Camp Grayling along with elements of the Michigan Guard during the period of July 8 to 23.

The Indiana Guard is planning a Civic Day on Tuesday, June 13. The day is expected to bring civic leaders from across Indiana as well as reporters, photographers, television, radio and other of the news media.

Registration is set for 4 to 4:30 p. m. at the Camp Grayling Officers Club. A group picture will be taken followed by a briefing session. A reception at the club is planned for 5 p. m.

The high point of the Civic Day will be the viewing of the firing of the "Honest John" rocket. The group will then return to the officers club and disband.

The 76th Brigade with selected elements of the 38th Infantry Division will participate in a joint exercise sometime during the month of August 1967 in the Eastern United States.

The main contingent of Guardsmen training at Camp Grayling are scheduled to return to Indiana on Sunday, June 25.

### THREE INJURED IN COUNTY TRAFFIC

Three persons suffered personal injury in two separate traffic accidents this past week in Crawford County, the Crawford County Sheriff's Department reports.

The first of the two mishaps occurred last Saturday morning at 9:30 o'clock in South Branch Township or Chase Bridge Road. A car being driven by Marjorie Joann Kreuzer of Roscommon attempted to pass a bicycle being ridden by Dennis Wilbur McCoy, 12, of Chase Bridge Road. Sheriff's officers stated that as the car passed the boy he turned into the car and was thrown to the ground.

He was taken to Grayling Mercy Hospital where he was treated for skull injuries, bruises and contusions and released.

Monday afternoon at 2:50 on M-93, three-tenths of a mile north of Military Road, a car being driven by Linda Marie Murphy, 17, of Frederic, left the road and overturned.

Sheriff's officer report that Miss Murphy braked her car to avoid hitting a deer, lost control, left the roadway and flipped over. The driver and Peggy Palmer, 15, of Grayling, both sustained injuries and were taken to Mercy Hospital.

### S. Branch Cleans Up, Nets Canoe Load

By Willard Bosserman  
Co. Ext. Natural Resource Agent

Litter from the South Branch from M-144 bridge to Steckert bridge fills one canoe. Three Roscommon boys, Glen Haight, Ron Boreman and Mark Shultz cleaned that portion of the river as a community service. The canoes for the clean up were supplied by Hiawatha Canoe Livery which is always willing to loan canoes for river cleaning.

The array of "junk" tells its own story. A couple of lawn chairs tells us that home owners forgot to take in their chairs last fall and the spring high water took them down stream. Surely no one would deposit them in the river after they had served their usefulness. The pop and beer cans testify to people's careless and thoughtless acts. People are not educated to the fact that such litter damages the aesthetic value of the stream. It is also a hazard to any one using the stream. Property values along the stream would be jeopardized if it were not for civic minded people like the three boys from Roscommon and the 144 skin divers

#### Miss Jan Mathewson West Branch Graduate

Miss Jan Mathewson graduated from the West Branch High School on June 1st in the top twenty of her class of 117 at 6:30 o'clock on Alumni Field.

Others came from Flint, Bay City and Houghton Lake. Her parents, Trooper and Mrs. Stanley Mathewson, held "open-house" in her honor at their home at 104 W. Wright St. During the evening 70 relatives and friends enjoyed a delicious baked ham buffet supper while visiting and expressing their congratulations and best wishes. Jan was happy to see so many of her loved ones.

#### Handy Hints

from  
HEIDI  
MATTHIAS

Enjoy camping? Is your camping equipment wearing out? Well, The United States Department of Agriculture scientists are developing new treatments to make outdoor cotton fabrics such as those used in awnings and tents last longer. Untreated outdoor cottons such as canvas, can lose more than 90 percent of its original strength in 12 months in an industrial area and about 60 percent in the suburbs. Printcloth was completely destroyed after 6 months in an industrial area, under study conditions, but retained almost 20 percent of its breaking strength after a year in the suburbs.

U.S.D.A. researchers exposed untreated fabrics for 1 year in area representing a wide variety of air pollution conditions. Areas having the greatest air pollution resulted in the greatest loss in fabric strength. Scientists say that sulphur dioxide from automobile exhausts and smoke stacks absorbs moisture and forms sulphuric acid which in turn rots the fabric. The U.S.D.A. is continuing research on chemical treatments that will extend the life of outdoor cotton fabrics. These fabrics become unserviceable when they lose two-thirds of their original breaking strength. The camper and home owner will save a substantial amount when outdoor fabrics no longer are affected by air pollution.

#### Dump No Rubbish

By Willard Bosserman  
Co. Ext. Natural Resource Agent

Dump no rubbish signs have become more numerous as anti-litter laws are better enforced. This leaves people with a problem of where to dispose of their bottles, cans and old newspapers. Nearly every township operates a dump.

Most permanent residents know where these dumps are and take their refuse to them. People who are up only for a week-end may not have bothered to locate the dump nearest them. I suggest that they do. Roadside trash barrels are placed there for the convenience of those using the roadside picnic tables. Use other than this causes an over flow and can be considered littering. Persons caught littering can be prosecuted under act 196 P.A. 1963.

Gazing into my crystal ball, I can see where large containers may be placed conveniently around the county for use by the week-enders, summer residents and tourists wishing to empty their litter bags. These would be emptied at a central incinerator or township dump.

#### GIRL SCOUTS TO HOLD WORK SHOP

Joining Senior Girl Scouts from seven states in a Dimensions For Living conference on the University of Wisconsin campus, June 25 to 30 will be Miss Mary Ann Mayer of Lewistown, representing the Big Waters Council.

Over 220 girls, ages 15 to 17, will attend the five-day series of work shops designed to increase their knowledge of the home and the world today. They will stay at Selkirk Hall, a new high-rise UW dormitory and enjoy all the recreational facilities of a big university.

The conference, sponsored by the University School of Home Economics and the Black Hawk Council of Girl Scouts, Madison, Wis., will give the senior high school girls their first real campus living experience. Focusing on their roles as women in the home and the world will be Scouts from Indiana, Illinois, Michigan, Minnesota, North and South Dakota, and Wisconsin. The girls were selected by their local councils.

At the conference, the girls will hear top specialists in fields of home time - and money management, family living interior decorating, personal development, international friendship, and community leadership. They will also live their program by the traditional Girl Scout troop and patrol system of government.

The conference at the University of Wisconsin is one of ten to be held for Girl Scouts throughout the United States. It is based on a national Girl Scout pilot project, "Conference on the Home" which was held at Purdue University last summer.

Director of the conference is Mrs. William F. Thomas, Madison, Wis. National Girl Scout representatives are expected to attend along with university, state, and city officials.

### Boy Scouts '68 European Tour

Enough Scouts and Explorers have indicated an interest in the proposed 1968 Summer European Exploration trip to warrant preliminary planning of an itinerary and other preparatory steps, Paul Price, Chippewa District executive, said today.

Meetings Wednesday and Thursday at the Midland Community Center resulted in enough boys signing up for such a trip. Additional boys are expected to join the group during this month by forwarding their names, ages and troop or post to Price's attention at the Paul Bunyan Council, BSA, Service office, 402 East Ellsworth Street, Midland.

Boys must be 14 or older during the summer of 1968.

Carroll Fritts, Price, Charles Schmidt, Donald Petersen, Fred Tuttle and Lou Cramton gave the boys attending the first discussion meetings a look at places in England and Europe that might be included in an itinerary.

Slides of past Scout gatherings there, Alpine hiking lodges, famous landmarks and historic sites were augmented with souvenir neckerchiefs, badges and patches, and other gifts of friendship exchanged on past trips.

Questions on costs were answered. The \$555 is a tentative figure, the boys were told, and depending on the kind of an itinerary the boys chose might well be a little higher than the final price.

The itinerary will be planned by the boys making the trip, a Scout-ing tradition, and the committee will be at their service.

The cost figure will cover all transportation and accommodations but souvenirs and gifts for the folks back home are up to the individual Scouts and Explorers.

It was pointed out language should be no cause for worry by prospective European travellers.

Almost everywhere and with almost all people whose business it is to deal with the public you will

find they know enough English to understand and to help you, the Scouts were assured.

But it is desirable to try to learn a little of the languages of the countries to be visited—at least the "courtesy phrases"—as it will increase the traveller's enjoyment and make a better ambassador of good-will of him.

They were urged to not try to cover too many countries on the one trip but to concentrate on a few and spend a little more time in each. It was felt by their advisors that this would let them get more out of the trip.

So now the boys must get organized and start trying to agree on points they want to visit. Any boys

Crawford County Avalanche

Interested in the possibility of joining the trip are urged to look into it immediately so they can join the other boys and not miss any of the trip planning sessions.

Petersen, Council Commissioner, pointed out that the trip was not just a fun outing or a sightseeing trip. "Sightseeing and fun are, of course, part of any such trip," he said, "But this is a Scout trip and the benefit of visiting with Scouts in the older countries is important."

Arrangements for visiting homes of Scouts in the countries visited and accommodations in camps, chalets and hostels with other Scouts from other lands will be offered the boys during their planning sessions.

## Service to Crawford County and Grayling . . .

These were the words used by Robert W. Strong in editorial in this space last week, spelling out his rights as he left after almost a quarter-century at the Crawford County Avalanche.

That's mighty fine credo.

and it will continue to be the main purpose and aim of the new ownership of this fine community newspaper.

After 23 years at The Avalanche, Bob and Eva have contributed much to the newspaper, to journalism in general, and to the community.

Their service was in keeping with that of the long line of editors as Bob spelled out last week.

We intend to keep the faith . . . and, if possible, to add our own touches of improvement as years go on.

The Avalanche is not a big city newspaper, and we intend to try to turn it into one.

The Avalanche is a community newspaper, dedicated to the welfare of the people in Grayling and Crawford County.

As we get our feet on the ground here, we intend to try a few new and different things in seeking to fulfill our self-appointed role within the community.

We intend to be first, a newspaper, with interesting, informative, significant items.

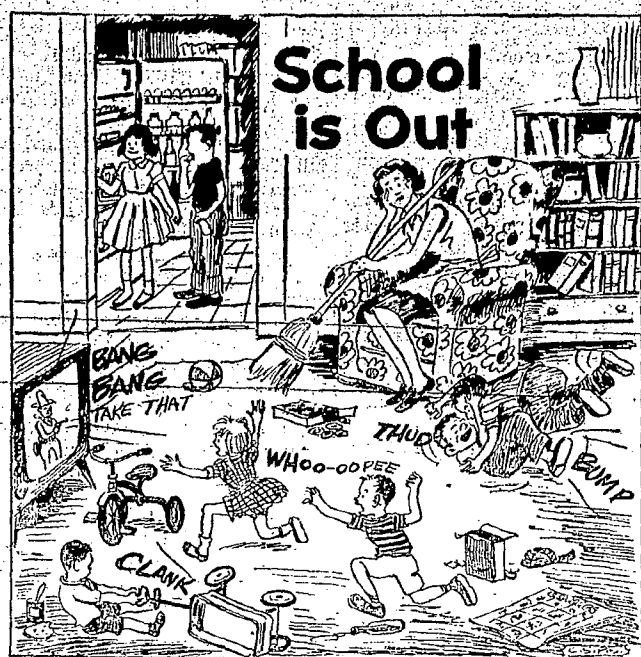

We also intend to be an effective advertising medium, adding to the businesses which finance our very existence the best possible service as an effective sales and advertising device.

We also intend to take our place within the community, helping to further the growth and development of this area.

Grayling and Crawford County are important to us, and we are to all our readers. This is why our watchword will continue to be:

Service to Crawford County and Grayling . . .

State Highway Commissioner Charles M. Ziegler said yesterday the Crawford County Road Commission will assume maintenance of state-trunkline highways in this county June 15 under contract with the State Highway Department. At present the commission is maintaining 745 miles of county roads. Under the new contract the commission will assume responsibility for the 75 miles of state trunklines now maintained by men and equipment from the state garage at Grayling. Mr. Ziegler said department engineers had carefully checked the personnel and equipment of the Crawford County Commission and he is satisfied the commission will be able to do a splendid job of maintaining the state trunklines in this county. He added that the new contract will save money for the taxpayers and save equipment and valuable manpower through elimination of duplication.

Mr. and Mrs. Shirley Wheeler, Mr. and Mrs. Oscar Meisel and daughter Charlotte, of Standish, and Miss Naomi of Bay City were Sunday guests of Mr. and Mrs. Charles Meisel.

There are 28 Scouts in the Troop and those awarded Second Class badges were Patty Mallinger, Joan Bond, Patsy Bishaw, Doris Golinick, Christine Sales, Joan Randolph, Anne Holm, Nancy Hoelsi, Sue Giegling, Ruth Decker, Patsy Failing, Barbara Nelson, Vera Tinker, Phyllis Bennett, Betty Jean Mathewson. From the great pine country that made Michigan famous all over the world, the state and private owners now are harvesting a fourth crop — oil and gas. John Bruun, one of the liquidating trustees of the Salling Hanson Co. of Grayling says "the white pine in many instances was not the most productive crop from a financial standpoint. After the pine came the hardwood and hemlock, and I dare say that the hardwood and hemlock produced more wealth than the white pine." After the hardwood and hemlock came the tourist boom. Today the industry is estimated as worth \$300,000,000 annual to Michigan. The fourth crop is now being harvested; first white pine, then hardwood, next the tourist, and now gas and oil.

Mrs. Velma E. Reava and Mr. Roy E. Johnston were married in Detroit June 3, 1944. The double ring ceremony was used, the officiating minister being Rev. Peace of the Church of Christ. They were attended by Mr. and Mrs. E. V. Greenwell, the latter being sister of the groom, of Detroit.

Tuesday morning about 6:30 o'clock, who should come to take in the sights of Grayling but a deer. Possibly the deer was rather new at "window shopping" . . . the animal came thru Dr. Stealy's yard and continued across Grayling's main thoroughfare — jaywalking at that. He seemed in a hurry as the someone were after him. After getting across the street he jumped thru the plate glass window of Kraus' 5c to \$1 store, shattering the window and cutting himself, his front feet land-

ing just inside the window. Rather shocked, he went away from there and on down the street, leaving drops of blood; pausing for an instant in front of Olson's shoe store to take a look at the display, he went on past the courthouse and up by the school. That is the last place the deer was reported seen.

Mr. and Mrs. Jack Wade are now at their resort on Lake Margrethe ready to start their summer business.

Prof. and Mrs. Frederick G. Dickason, Baptist missionaries, returned to the United States May 23 from India. Mrs. Dickason is the daughter of Mr. Henry Bates of Dearborn and a niece of the late Melvin Bates. The Dickasons left Detroit seven years ago for Rangoon, Burma. He was a botany and English instructor at Judson College while Mrs. Dickason served as medical missionary. When the Japanese took Burma the Dickasons and four children fled to India.

### WILDLIFE BABIES NOT FOR "ADOPTION"

LANSING — It happens every spring and this year is no exception. Some well-meaning people find young wildlife seemingly deserted by their mothers in the out-of-doors and unwittingly decide that those "poor little creatures" need their parental care.

Not so, says the Conservation Department, whose Rose Lake Wildlife Research Center near East Lansing is beginning to look like a wildlife-orphanage—because good deer hunters have brought so many young animals and birds to its doors.

Now, Department game men are equally concerned about the welfare of these wildlife babies and that is exactly why they are again urging Michigan residents to "leave 'em to the wild."

In making this springtime appeal, game men point out these three good reasons for not picking up young wildlife:

1) Young animals need their real mothers to stand the best chance of surviving (don't mistake them for being "orphans" if you find them alone in the wild).

2) It's against the law to possess game animals out of season.

3) It could be a threat to your family's health. Some wildlife can pass diseases on to people.

## Jaycees Install

(Continued from Page One)

is to be hung alongside the charter of the organization.

President Gust gave a short speech on the past year and its impact on the Grayling area. Mr. Gust thanked his fellow officers for their assistance during the charter year of the Jaycees and charged the newly elected officers with their responsibilities for the coming year.

John Marshall was the first officer installed for the coming 30 year. John is the newly elected Director of Membership. Larry Hunter gave John his oath of office.

William Holzman was installed as Treasurer by Clare (Skip) Madson. David Maclean was installed by retiring secretary Larry Hunter.

James LaGrow relinquished his office of External Vice-President to Clyde Weiss. Robert LaMotte stepped down from the office of Internal Vice-President and installed Chuck Vick to same.

Gilbert (Terry) Wyers was then installed as President of the Grayling Area Jaycees by the now past-president Larry Gust.

Mr. Wyers gave his acceptance speech and voiced his desires for a very successful Jaycee year, even more than the year just ended.

A motion was accepted from Bob LaMotte to adjourn, motion carried and the past president declared the meeting adjourned. President Wyers led the group in the Jaycee Creed to end the program.

After the program a wonderful time was had by the group as they danced and discussed every topic under the sun.

**Beaver Creek Breezes**  
By Margaret Griffith  
A special meeting of the Beaver Creek Township Board was held Thursday to discuss whether to build a new building or remodel the old one. Thirty-three people attended. It was decided to remodel rather than rebuild. A discussion was had and it was decided to set aside \$1,000 to remodel the kitchen.

It was suggested that all other than to decide whether to rebuild or remodel attend the Board meeting on June 5th.

I attended the meeting Monday which was called to order with five persons present. Our general fund had \$5,492.52. They had a smoke dinner at the hall and insurance paid \$100 for damage.

The park was discussed. Mr. Lobsinger came and several people to ask why we can't reopen our Beaver Creek park, which gave the children lots of enjoyment.

A motion was made by Mr. Bassett to fix the old pump, put grills and tables and in the near future playground equipment, also to screen the basement windows at the township hall. A roll call was made and this vote made by all. Andie was to see about getting someone to do the work. The kitchen was discussed, and work will begin in the near future. A new furnace was in order and a bid of \$1,608.69 given by Post Oil Co. Roll call was taken to accept with three yes votes and two no. Motion carried and majority ruled.

It was also discussed on the moving of the bathhouses at the park and asked for prices and they had to be put into the township hall area. A well was discussed for the Beaver Creek Cemetery and estimates to be given by Mr. Neilson.

The Dikins were at their cabin on Millikin Lane, also the Ralph Davises and Barney Goulet.

Mr. and Mrs. Clish also were at their cabin.

Mr. and Mrs. Pete Lobsinger spent the weekend visiting their son Gene.

The Scott Sims family attended the stock car races in West Branch Saturday and Frederic Sunday only to find there were no races again.

A. R. Jacobs, Traverse City industrialist and former mayor of the city will serve as temporary chairman of the District until a July meeting of the Commission, at which time permanent officers will be elected.

The Council selected Traverse City as the location for the permanent office and approved a budget of \$58,011 to operate the District Office and a full-time staff for the next year. Hesky predicted the EDA will approve a grant of \$43,508 as its 75% share of this budget. The 11 counties will contribute the rest. The county shares will be prorated according to assessed valuations.

As soon as the district office is established, it will begin work on an overall economic development plan for the district, which will point up projects needed to spur its economic growth and programs needed to reach these goals. It will assist counties on individual county programs and also be active in projects involving several counties or the whole district.

### CEDERBERG HONORED IN WASHINGTON

Washington, D. C.—The Honorable Elford A. Cederberg, United States Representative from the Tenth District of Michigan, was honored at a gala reception in the Nation's Capitol when he was presented the Distinguished Service Award by the Board of Trustees of the non-partisan Americans for Constitutional Action.

ACA's Distinguished Service Award is bestowed every two years upon those legislators whose voting records in the Congress of the United States support legislation which serve to strengthen and defend the spirit and principles of the Constitution of the United States.

In presenting the award to Congressman Cederberg, Admiral Ben Morell, Chairman of the Board of Trustees, stated: "On behalf of our Trustees I have the pleasure of congratulating you this evening and personally thanking you for your outstanding record in the Congress and devotion to those fundamental principles of good government which serve to promote individual rights and responsibilities; a sound dollar; a growing economy; and a desire for victory over communist aggression."

## Michigan Faces Doctor Shortage

### DOCTOR SHORTAGE

An acute shortage of doctors may face Michigan and the nation within the next decade unless steps are taken to reverse the declining doctor-to-population ratio.

The national average of 124 doctors per 100,000 population has remained fairly constant since 1930. Michigan averages 105. South Dakota has the lowest ratio with 75 doctors per 100,000 people and New York has the highest with 191. But the ratio is beginning to show an alarming change.

Michigan's immediate needs are 300 additional doctors per year, says John A. Doherty, executive director of the Michigan Health Council.

To fulfill this minimal need, Doherty suggests the University of Michigan medical school increase number of graduates from the present 200 per year to 300. Wayne State University should expand further, he says, from 75 to 200. The new medical school, planned for Michigan State University, should graduate 100 doctors per year.

These MSU graduates should be primarily "family physicians" or general practitioners, Doherty maintains, to fill a growing need in the state for a "family doctor."

The doctor shortage stems from many causes. While Michigan's two medical schools are currently operating at capacity, population is still expanding. Medicare and Medicaid bring more people into doctors' offices and bring them more often. Industrial and private insurance plans make it ever easier for people to seek medical advice.

Even calls not covered by insurance are increasing. Dr. William N. Hubbard, Jr., Dean of the U-M medical school, recently told a group of reporters, "People are making more money than ever before, and they're choosing to spend a larger part of it on more medical service. We have no choice but to provide the service they demand."

Hubbard pointed out that the average doctor works a minimum of 60 hours per week and carries three times the case load of 1930.

The doctor shortage is already felt in many Michigan communities. The Michigan Health Council lists 150 communities which seek at least one medical doctor. Another 60 communities need some 120 medical specialists in various health facilities.

This shortage is not unique to the state. The American Medical Association estimates 55,000 additional doctors will be needed by 1975.

Foreign doctors presently take up some of the slack. About 6,000 arrive annually and 1,500 become licensed and stay in the U. S. These doctors are needed badly in their own countries and international friction has developed in many instances over this drain of medical personnel.

Consumers can feel the "pinch" of doctor shortage in the pocketbook. Per capita private expenditures for medical care increased 121 percent between 1948 and 1961. Future shortages will worsen the situation.

The medical profession has done little to remedy the growing continuing scarcity of doctors. In some instances medical people seemed to thwart efforts to improve conditions.

Hubbard tends to overlook the profession's past record and fixes responsibility solely on Congress and state legislators. He blames these bodies for not appropriating more public funds to deal with the problem.

The shortage could be eased as more young medical men complete their training and move into private practice. Before this takes place, the state must appropriate more money to operate additional training facilities. The increase of doctors would be slow at first, but gain momentum as facilities develop. It would begin only after training periods finished: Four or more years after completion of expanded medical schools.

At best, the outlook is not encouraging. The need for doctors is still increasing faster than supply. Demands of the military service have added to the problem. In 1962, Michigan had 277 medical doctors in service. The current figure is 622.

The number of people in age groups which require the most medical attention is also growing. The solution lies with the public. If the state is to build additional medical facilities, public monies must be spent. Legislatures must be convinced by constituents that the need is worthy of appropriation.

Michigan has the talent, need and basic facilities to completely eliminate the shortage of doctors. The question is: Is there a willingness to pay the price?

### 4-H News

The Patient Fingers 4-H group met May 29th for a business meeting and elected new officers for the coming year. Elected president was Lynn Kolka, vice-president Lynn Akers, secretary Janet Papendick, treasurer Susan Meoak, recreation leader Charlene Papendick and reporter, Shelly McClain.

The girls met Memorial Day to plant peonias between the City Hall and Ausable Bridge, even going a bit further than their allotted space. They extend thanks to Ray's Cane Livery for hose-to-water the plants, to Mrs. Howard Santure for helping them, and to the Byron Randolphs for an ice cream cone after the planting. At the business meeting it was decided to meet each Monday at Mrs. Kip Papendick's at 6:30 p. m. until the weather became too hot for work. Charlene Papendick, reporter

ices were held in the Danish language up until the year 1930. Many of Pastor Haskel's remarks brought back nostalgic memories to members of the congregation.

Members of Messiah Lutheran Church, near Roscommon, whom Pastor Haskel also serves, were special guests for the afternoon. On behalf of that church, Mr. Clarence Collier presented a gift to the St. John Church, which was opened by Church Council President, Mr. Donald Jansen, who expressed thanks for this remembrance.

It was on November 29, 1964, during the pastorate of the Rev. Harris A. Jespersen, that the congregation of St. John made their momentous decision to move their place of worship from their old church on Ionia Street to the new location at 501 Michigan Avenue, known then as "Danebod", which had been the Parish Hall since 1908, when it was presented to the congregation by the late Mr. and Mrs. Rasmus Hanson.

During the year 1965, new gas furnaces were installed, and the men of the church completely remodelled the auditorium with light oak panelling, beautifully made altar, Pulpit, Lectern and Communion Rail, and red carpeting was also laid. The first service in the new Sanctuary was held on

December 19, 1965.

Since that time, the basement has also been completely done over — new wood floors were laid and covered with tile, the kitchen was remodelled, and the entire area was painted and varnished, also the work of the men and women of the church, who have reason to be proud of their accomplishments.

It is hoped that in the not-too-distant future the outward appearance of the building can be remodelled also, with a bell-tower, at which time the bell from the former church will be brought over and installed.
